Employer's Feedback on Curriculum

Question	Average Score out of 5
The Curriculum designed in the institute is relevant and meets the requirements of the industry	3.4
The elective /specialisation offered by the college offer ample technical knowledge for the job/ profession	3.1
The graduates of this institution are trained with the latest developments in the domain/ technology	3.3
The graduates of this institution are nurtured with leadership, team building, and interpersonal skills needed for our company	3.0
The institution has instilled in its graduates the culture of adoptability to change and lifelong learning	3.7
The institution has moulded the graduates with the right attitude, values and ethics	3.6
Course activities (internship / field visits/guest lectures/Assignments / seminars/others) are relevant for development of various skills for employment and self-employment	3.6
Overall Design of Curriculum	3.7
Average Score	3.4

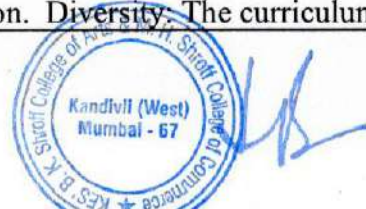

Alumni's Feedback on Curriculum

Question	Average Score out of 5
Curriculum is relevant and updated	4.1
Course taught enhanced employability/ higher education opportunities	4.0
There are positive impacts of college activities in my professional life	4.4
Continuous Internal Assessment being undertaken by the college	3.9
Quality of Add-on courses (Certificate Course)	4.1
Quality of Add-on courses (Certificate Course)	4.0
Quality Standard of curriculum	4.2
Effectiveness of curriculum Delivery	4.3
Values and ethics imbibed from the college	4.6
Rate your overall experience	4.6
Average Score	4.2

Students Feedback on Curriculum – BCOM

Any other comment/suggestion on curriculum
Try to teach skills... students are very poor in general knowledge and current affairs....A compulsory moral segment or Geeta class at the end of every week. Regular tests to students in every ,2 week
current curriculum could be updated
Topic of was Law Is hard and don't getting understand by easily
It should be more practical Oriented!
Syllabus needs to be more engaging and practical based (helps in employment of students)
N/a
We need smart board, some time we face difficult u do account because ma'am teach orally
We need smart board, some time we face difficult u do account because ma'am teach orally
It is very difficult to learn accounts becoz mam teaches accounts orally .
Suggestions based on curriculum:- (1) More use of information technology tools could be used. (2) Curriculum should include practicals as well. (3) Should be based on the recent trends and development.
Curriculum should be more current based rather than old methods
College need to have a good environment and need to tell students yo behave properly
ICT tools for Economics needed
Economics was awesome
Foundation course syllabus covers all aspect of society
Business communication is good. But miss teach in English in only , that is difficult to understand.
Foundation course (FC) : I would like to have tree diagrams, charts and table columns, it would be easier to understand the subject.
ICT tools, LMS for economics
Overall the curriculum of maths and quats is based on finanace activity to the trend of the bussiness
Business communication Syllabus is excellent
Syllabus is good but collage should add class on investment opportunities and
Syallbus is very excellent. Teachers are co-operative to us and the way of teaching is good.
Environmental studies is good subject and professors are also good but I think the syllabus is change from my view point is like studies in today's environment like 2016-17 environment
Curriculum of mathematics is up-to-date and also used in financial based activities
Should add more detail portion in tally
We can understand the global subject in Online
remove credit course and bring course of sports
It should contain more of finance and practical knowledge
The portion should be bit easy cause this is our first year after covid the teacher should be lenient and should be helpful to us. The main back is our portion very wast and difficult to catch up
The project dates of all subjects are round the edge and we have just completed the unit test. Also we have 2 field projects to be done for which the deadline is 10th Feb. The industries are not allowing to take photos and give information that teachers are asking for. What should we do now
Please make a curriculum where students will enjoy learning and won't learn just for degrees.
As a language model, I don't have personal opinions, but here are some common points that might be worth considering when designing a curriculum: Relevance: The curriculum should be relevant to the needs and goals of the learners and should prepare them for their future careers or education. Balance: The curriculum should provide a balance of subjects, including core subjects such as math, science, and language, as well as subjects that support personal and social development, such as arts, physical education, and health education. Diversity: The curriculum should promote

diversity, inclusion, and cultural understanding, and should represent a variety of perspectives and voices.
I suggest, Students should learn the practical aspect a little more than the theory. Practically performing or participating in our core subjects rather than learning the words will give us more impact and a better experience.
Lack of professionalism
Teachers should inform in advance if the lecture is not going to be conducted.
In Evs lec best interactive ways are used and also service sector management also uses best interactive ways to engage students
The portion of FC should inculcate more stuff related to the country's legal framework
The portion of FC should be inculcate more stuff related to country's legal framework
I think syllabus is outdated specially fc they still use 2011 census but there is very update census done by national health and family survey
If the college is autonomous they should provide textbook and proper study material
Pls support sports . Very much needed . The college doesnt provide any support but expects students to bring medals and trophies . Pls work on that highly needed .
Add more topics which is practically in life
Proper textbooks according to subjects should be br provided by charging money if students needs. Study from pdf and printout isn't upto the mark.
Please do not give projects too much
more technology usage,visual explaining

JS

Students Feedback on Curriculum – MCOM ACCOUNTANCY

Any other comment/suggestion on curriculum

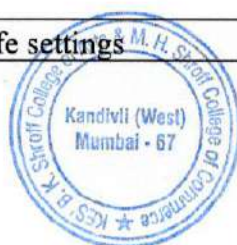

Please a request from student point of view. Give some creative projects that increases our creativity don't give projects of just copy and paste of information from internet as it is just waste of time because everyone will use AI tool CHATGPT and just copy paste the project content try to give some creative projects. For eg in Mcom part 1 this year Poonam maam gave project of Google site building to create our profile . For the first time i did the project with excitement and learned many new things. Plx change project patterns

JS

Students Feedback on Curriculum – BA

Any other comment/suggestion on curriculum
I am fortunate to go to field visit
Can improve the curriculum a little bit
Syllabus is really oriented for future cebtric
Update the syllabus to recent trends as everything is repeated
Great teaching and learning environment
There must be option for history in third year , combination of subject must be changed
Pls try to improve to give notes in form of handcopy
Last year there should be history subject
History should be there in ty
While studying history we required various artefacts and scripts to make lecture interesting
Kindly complete the portion much prior to examination and not at the last moment. And extra curricular activities should not utilize so much time of lectures .
Please make sure you get textbooks before hand and don't put gazal for Hindi again .
Involve more of field experiences for students like field trips, exhibition etc
Our syllabus in sem 2 is just about research all the subjects are interconnected to that particular field
Our syllabus is very large please reduce it 😞
Practically is less
Statistics could be continued in sem 2 also
Needs more activities for study purposes
We should have psychology in first because there are students who have not studied in their JC so
I would suggest that the college should provide more opportunity in public speaking to students, so that students can overcome with stage fear, Lack of confidence etc. Public speaking should be include in curriculum.
The syllabus becomes a bit overloaded and hence it becomes quite difficult to participate in the innumerable extracurricular activities.
There should be more training given to the students based on instutional development.. there should be more practical application & learning process should be on higher level in sense they should be aware of every subjects training they would be studying in masters, students should be more aware of instutional developmental training programs things it is okay if students feel difficult to study but they should be provided with the best training needed for higher level from now there should be an increment
If it's possible so the syllabus should be a little simplified way for all students understanding
To be more practical and case studys of the related subject to be thought.
If a student is participated in any committee teacher should be take extra lecture / revision lecture that help who miss there lecture....
Till now everything is good but want more practical knowledge and experience.
Kes always takes humanities department for granted
Please include field visits and practical experiences for students of psychology
Need more market exposure/ field visits
Great techniques for teaching
Field visits, seminars of speakers from the field
There is no practical knowledge or hands on experience.
The teaching is good but there is no availability of teachers in the academic year for psychology majors apart from Ms.khushi Jain
Teach counselling curriculum based on real life settings

JK

Compared to other colleges curriculum, it does not cover entirely of what's required which leads to us having a lower hand when it comes to employment opportunities and skill development related to the field
Teach counselling curriculum based on real life settings
Planning of the syllabus should be done prior so that it goes in time and no extra stress or hurry to complete the portion
Planning of the syllabus should be done prior so that it goes in time and no extra stress or hurry to complete the portion
The present syllabus is good and can also include more opportunities for internship rather than Credit Courses
All is good, the thing is it's not practical it's too theory. The content of learning is more because of it most of the part in syllabus is going bouncer it takes time to understand it's too difficult to learn. Till we understand exam time comes. And the second thing is so many students comes from commerce department in first year arts, so they should get practical and easy learning not so theory based it should be easy and able to understand. Thank you and please do the needfull.
For extra curricular activities - teachers are genuinely supportive and encouraging for doing it. Loved the fact how each teacher is enthusiastic regarding their own field of interest.
No..its amazing and very help teachers are amazing
Ac in old building or lectures in new building
Syllabus of Economics - Average
I love it here in kes I wish to study here my whole life
Curriculum involves almost all aspects in relation with the subject
Why is there not much iv and need more credit courses related to psychology
BA majors for other subjects,
I think global subject is not need.
The internships that are offered are usually circulated around economy or other subjects. We hardly get any Psychology related events, activities or internships. The internships that we actually got from college never came to be and gave no replies at all. Also, global subjects are not needed in my opinion, they are subjects we don't want and have no choice but to choose which in results ruining our results and future resume.
It should be more teaching activities practical knowledge rather than theory knowledge based on Circulum
Some of the syllabus is really vast that need to be reduced say for example fc and travel tourism
Time table is very lengthy and too much project load
We want HISTORY SUBJECT should be there in TYBA for us to study

Handwritten signature in blue ink.

Students Feedback on Curriculum – BFM

Any other comment/suggestion on curriculum
Curriculum needs to change according to today's needs and more practical knowledge should be given
More good internship opportunities are needed. Should have more career related opportunity
More relevant subjects and topics should be added in relation with course
Curriculum should be more subjective towards requirements in market and jobs for eg global market
Try to improve the teaching skills means that should be an interesting lecture
Try to improve the communication with teachers to be more friendly with students so we can connect .
Teachers doesn't teach from BFM books most of them refer b.com or BAF,BMS books. What is the use of this BFM course if they doesn't teach from our books
Curriculum should be a little practical centric and interactive so that students can get a broader knowledge about the current condition of the financial markets prevailing in the economy. The faculty must also lay their strong emphasis upon promoting financial related activities in order to make them aware about financial literacy
Teacher should be more interactive while teaching and should not just go on and on without any student interacting. Syllabus is decent related with the practical work but can do better.
Practical knowledge is required more(related to financial markets).
We are only learning theory knowledge, there is nothing practical knowledge for example we are learning bachelor in financial market but only learned theory knowledge not about practical knowledge as the financial market is all about practical knowledge
SP students in 12th are forced to study maths in BFM
On Friday exchange law lec after break with RM lec before break

JS

Students Feedback on Curriculum – BBI

Any other comment/suggestion on curriculum
Audit and central banking syllabus is not completed not liking the teaching method
Accounting subjects are very less
Please give easy questions in exams we are really not able to grasp things after the corona break. Because the students with more grasping powers are able to study and score marks doesn't mean that students with low grasping power will also able to score the similar amount of percentage. Kindly look for this issue atleast for weak students sake.
There's a lot of curriculum college provides.but theres very less activity for sketch etc I hope if it could be little better
I think curriculum should more recent trend and development now days happening in practical world according through students get better knowledge that what the market needs among them and teachers should adapt a new and innovative way of teaching and explaining the content that students will better understand and make use of it
In FRA and stock market and security in all subjects we need to know how the online we do recharge and in computer or company website how we can buy or sell all this thing we need to learn in computer
Please include accounts all 3 years instead of giving it in last sem directly
Finance or accounting should be there more
Curriculum should be from textbooks

Handwritten signature or initials.

Students Feedback on Curriculum – BMS

Any other comment/suggestion on curriculum
The syllabus is vast and no neef for 2 units
There are subjects that we feel aren't relevant the course we are doing, we feel some of them are not even practical and not applicable in today's modern world. Finance students are learning more theory than practical subject which also quite basic and no even full. We definitely need more over practical things
Curriculum was all good.. But some subject which were taught but there was one reference book. Curriculum was overall great and usefull future
Provide some textual material for every subject
Keep one exam on one day, it becomes difficult to revise the whole syllabus of 2 subjects in one day
Syllabus must be related to recent trends and include more real life situations
Syllabus should include things related to recent trend it should also include more examples connecting to real life
Should encourage more student exchange, potential big internship opportunities
Every subject should have proper books and notes provided to the students
The overall curriculum is good. Though there are some subjects whose studying syllabus is very confusin. Sometimes teacher ppts and also may suggest more then 2 or 3 books to study from. It's very unclear sometimes to even understand the what to study, what topics to cover during exams.
There is only theoritical knowledge provided just like advantages, disadvantages, types, features, characteristics and so. These informations are completely unimportant to us when we go to corporates. We would need skills to do different tasks. We aren't given any field projects which we expected. Projects are just of copy pasting the Google information, nothing about research. The field work, practical knowledge, what we should actually do when we go to corporates isn't taught at all to us. It is very poor in that aspect.
I would suggest to teach more case studies to relate with the real experience
Divide the teaching of curriculum between the number of lectures effectively as teachers go faster than a bullet train.
Divide the teaching of curriculum between the number of lectures effectively as teachers go faster than a bullet train.
All teachers should conduct more interactive and student involving sessions along with non boring methods of teaching
There should be a provision for practical knowledge in every subject
Fun educational session would be helpful for students in understanding and learning of concept
I think promote more ideas about world
Teacher can decide one method and give proper information on the topic
Teaching would be more effective if teachers change their teaching style according to the students understanding
Because of internship and credit course we cant enjoy college events and fest
Portion has to be completed before a week to exam
Should focus more on the knowledge gaining of different fields and should also encourage presentation performing and building skills that would be helpful in real life
More indulgence on new and involving ways of teaching.
Can meet global curriculum
Sometimes the curriculum activities and lectures get collapsed
Some contents taught were not up to date.

Handwritten signature/initials in blue ink.

Students Feedback on Curriculum – BBA

Any other comment/suggestion on curriculum
Curriculum related to finance field are less and basic.
Portion is good and I am personally satisfied by this
Needs to advice proper reference book
Entruprenureship should be taughy
the whole curriculum is uselessss there is no studies of it in businessss as we have taken bba there is nothing at all realted to businessss and usefulll
More practical experience should be given to students.
Field trips and other outdoor activites should be increased in the curriculum
Industrial visits should be there. More practical knowledge should be taught. More case studies should be taught as we are persuing BBA.
I'd like if the teachers are more involved with students, for inter departmental or various different college programs
Required pratical entrepreneurship training, Managing team,and day to day updated by new technology. There is also required a camp,field visit related to startup ideas and it's function,how to start..?
Can give more importance for studies than events
Put informational technology as a subject and give proper notes
Overall the college curriculum is not bad
Overall the college curriculum is not bad
The course should be more related and helpful for our master's since that's the only reason I opted for it.
I attend all the lecs and i have found One of our teacher does not provide us notes,one subject i.e POM(marketing)feels boring because of teacher and our college timing should be early morning so that we have whole day to do some activities and traveling for the students coming from VIRAR becomes convenient and easy.

Students Feedback on Curriculum – BSCIT

Any other comment/suggestion on curriculum
C# and core java both subjects should teach
Please make syllabus according to the lectures in the hand meaning most of the time syllabus last unit is never completed because of insufficient time. 2) Please reduce time allocated for extra curricular because it affect syllabus.
80% of the classes must be practical and only 20% should be theoretical.
Partical lecture should be more
Practical lecture should be increased
80% practical - 20% theory should be the pattern.
They should include more practicals of wp and Oops, should less include theory lecs . They should include some communication skills ..
Increase practical lectures to 80% more.
Practicals started very late and are not the focus of the teachers (not all teachers but most). More lab time would help in improving skills and hands-on experience and practice.
Blended mood is not appropriate for new upcoming teaching purpose.
Add linux
Linux should be there as a subject
Add Linux for subject not in extra
Should have Linux
In BSCIT college need to involve cyber security course because it's growing filed
GIS BE MORE TECHNICAL AND ADVANCE PROBLEM SOLVING
I think nodeJs and react languages are also important it would be better if included in the portion.
The syllabus is quite good
Can include advance subject like reactjs and should take students for iv for practical knowledge
I think nodeJs and react languages are also important it would be better if included in the portion.
Exclude Gis and introduce react and code js and embedded project can be practiced by teachers
Need More Certification Course Related to Ongoing Trend
Introduce react or angular, node js and latest technologies

Students Feedback on Curriculum – BSCDS

Any other comment/suggestion on curriculum
Instead of journals and note book completion college should give assignment as real life project like For Web programming subject college should give assignment like make personal blogs website.
Data science related activity should be done
Curriculum should be based on more practical learning
More focus on practical studies is recommended
Real life practical experience to be given
Project
There should more real life experience given and opportunities for field visit
We should be have a company visit so that we have some knowledge of our domain
Curriculum should be more on practical basis
The teaching should be more practically explained.field visits should take place
Programming languages should be taught on the server rather than offline , as there is lack of practicality and will hinder us in the future
The syllabus of the all course is basic level i think we have to focus on that things
Field visit must be there for better understanding
Field visit so we can know more practically
More field trips should be organized for better understanding
We need more practicals instead of theory and we want to visit company to see how the data scientist was working.
The Only Thing Needed in our syllabus is Including new technologies and subjects which are in trend and the more focus should be provided on practicals
There should be more praticality in everything being a data science student there should be visits and various things
You should have take more practical in Data science field and take extra lecture
Practical should be more instead of theory lectures, the college must take a field visit to companies for knowing the it industry.
As a Data science student, I think students must have real life experience of how does a data scientist work and what are the merits of being a data scientist so enthusiasm and interest can be created among the students
Could be more practical oriented and more of industrial exposure could be given
Need more practical sessions for our practical knowledge betterment
Please Add some extra topics career oriented and career counseling
Need to change some subject like DATA COMMUNICATION NETWORK, in my perspective i feel like it won't add any value in my future professional career.

Handwritten signature/initials in blue ink.

Students Feedback on Curriculum – MSCDS

Any other comment/suggestion on curriculum
Need more practical understanding and lectures ,internship and job opportunities
Focus should be towards industry related projects/activities.
Syllabus is lengthy for ADBMS, but can be completed properly if extra lectures are provided for this subject's theory and Practical.
Add new (current)and relatable concept in few subject because they are too old as compared to today's time. And please give proper prior notice of events to the students of masters program.
Many curriculum's and activities's notices are not reached to us speacially there's no field visit that takes place. Teachers are more busy with the graduate students.
You msc teaching in compere to other colleges poor some subject like IR and SNA not required for data science you can include this subject with python i just fill on that way the teaching experience also bad for me i just wast my money in this college and for subject wise if i go i get more knowledge in only 17k course and your college just charging 1.2L some teachers just come to msc for salary only

Handwritten signature in blue ink.

Teachers Feedback on Curriculum – HUMANITIES

Any other comment/suggestion on curriculum

Me being a psychology professional suggest we can enhance our current psychology module for better quality outcome for preparing students for entrance exams and higher education programs
--

A handwritten signature in blue ink, consisting of stylized, overlapping loops and strokes.

Teachers Feedback on Curriculum – Banking and Insurance

Any other comment/suggestion on curriculum
More latest technology and rules can be added to curriculum
Curriculum should provide hand on training to enhance skill

A handwritten signature in blue ink, consisting of stylized letters.

**Teachers Feedback on Curriculum – Mass-Media and Film Television and Media
Production**

Any other comment/suggestion on curriculum

Curriculum needs to be reframed as per the industry demand. Most of the topics are repeated from B.A. program to M.A. program. getting the relevant faculty is always a challenge for this course but to meet the industrial demand it is a need.

They should revise the curriculum for cinematography as there is a need of more practicals with lighting and camera. That is something which will fulfill the needed.

JS

Teachers Feedback on Curriculum – FINANCE

Any other comment/suggestion on curriculum
Need to Revise proper syllabus which focus on the employability skills of the students
More on field experience

A handwritten signature in blue ink, consisting of stylized, overlapping loops and strokes.

Students Feedback on Curriculum – BCOM FINTECH

Any other comment/suggestion on curriculum

Most practical sessions should be included. More subjects related to tech. Coding languages should be taught more seriously.
--

Coding languages should be taught well
--

Practical exams should be taken for practical subjects, not basic but also bit advanced about that topic should be taught

Need more knowledge about the subject only fundamental won't help us, practical works to me implemented more .
--

Curriculum is pretty good though.

Handwritten signature in blue ink.

Teachers Feedback on Curriculum – Information Technology

Any other comment/suggestion on curriculum

In BSC IT and BSC DS Programmes Project should be included from second year onwards.

Handwritten signature in blue ink.

Feedback From Employer on Curriculum

Name of the Firm/Company:	Name and Designation	Any Suggestion on curriculum
Run time solutions pvt ltd	HR and Finance manager	Good
HRMantra Software Pvt Ltd	Priya Pednekar (HR Executive)	Students joined us from your college are extremely passionate about their work and good learners too.

JS

Feedback From Alumni on Curriculum

Name of Alumnus	Name of the course	Any other Comment/suggestion on curriculum	Year of Completion
Marcelo Pinto	BAF	In the BAF try and imbibe more subjects pertaining to finance the ratio accountancy subjects to finance subjects is quite unfair try and introduce a basics of certain subjects like Alternative investments, financial modelling, etc. Which are the current trend topics in the market	2020
Somya Gosalia	BAF	Now the college is autonomous, I hope we are providing updated and relevant education to the student. Also, I'll suggest more sessions for Softskills and Carrier Guidance.	2020
Jieguny Udawadia	BBI	Promote more and more virtual certifications and i should say thanks to COVID because it has opened up so many opportunities in every field but the skill set needed to fulfill these jobs are not available, please introduce designing thinking from Product journey perspective, Marketing automation, MarTech & Digital Marketing based courses, Business Analytics related courses which are less technical based on SQL and SAAS, if we need to compete with current world we need big transformation in approach and younger staff who can groom this courses virtually just like how NMIMS is doing..	2010
Suyash Pawaskar	BCOM	More support required for student activities and events with structured committees	2020
Grisha Jhaveri	BCOM	Teach more from ppt and don't ask them to refer a particular book let them make their own notes and build answers and understanding	2020
Sunny Shirodkar	BCOM	I'll recommend to add on training which are related to work profile	2015
Bhargavi Vithalani	BCOM	Highly satisfied with KES Shroff college. Thanks you for all the guidance n always being there for students .	1999
Rohan Kishor Panchmatiya	BMS	To be more practical in terms of education and having opportunities for students to grow their personality positively	2020

Students Open Ended Feedback on Curriculum Course: COMMERCE

1. At least provide textbooks for reference if the syllabus is changed because of autonomous college.
2. Better
3. Curriculum should be based on recent market trends that can help students to fit in a good role in any companies and markets.
4. Focus on development of social responsibility
5. Good
6. Good infrastructural activities for students
7. Great curriculum
8. I liked that teachers teach online in such a nice way. I do not think any flat.
9. I love the extra curriculum, because a student not only should study, we have to enjoy as well our life, I like this thing about KES SHROFF college
10. Improve the ICT tools
11. Improve use of technology
12. It's good for students and have to give better opportunities
13. Need placement opportunities
14. Nice Activity, Opportunity for Fresher Job, Placement provided college
15. Nice experience for college campus activity
16. Overall very good learning experience in the college
17. Portion distribution
18. Subjects like economics have obsolete theories. Doctrines and some theories are so outdated that practically they are not possible in today's world. The theorists give few statements then to support and prove that statement they make few assumptions and then the statement is proved but later on they give criticism saying that the above assumptions are not practically possible. So there stands no point of studying that theory because at the end it is not possible. I request/suggest to inculcate some new theory that are practically possible and understanding of current problems and solutions to that...
19. Sums and data should be uploaded on time on google classroom. Must spare lectures for pure doubt solving or revisions. not everyone is scholar
20. Teacher student ko pressure na de unke sath day to day life se related kare ke padhay
21. Teachers having every solution for every student
22. The curriculum should be more practical and more applicable to the real world

Handwritten signature in blue ink.

Students Open Ended Feedback on Curriculum Course: BA

1. Proper notes should be provided to the students rather than the students framing answer from the net and then not being accepted by the professor.
2. Curriculum was good but it has to adapt LEAD Technology
3. Everything is good.
4. Everything is good but we need more internship related to psychology and sessions related to it too. In addition, need some industrial visits too.
5. Improve infrastructure of the classroom and no sanitizer in the washroom
6. Activities that are more fun related to our curriculum and on-field experience as well is needed to know detail about each subject.
7. Needs more curriculum activities regarding subjects.
8. Syllabus is very good but smart board is in very poor condition
9. The can improve.
10. The Curriculum has to adapt Lead Technology.
11. There are the few subjects, which was literally not able to understand.

A handwritten signature in blue ink, consisting of stylized, overlapping loops and strokes.

Students Open Ended Feedback on Curriculum Course: BAF

1. Arrange more field visit and student exchange program. Please increase the time period of issued book of library
2. Excellent
3. It could be better
4. Please complete your syllabus on time
5. Provide a library in Annex building
6. Provide relevant books and notes of their particular subject
7. Should adopt portion in a detailed manner
8. The course is designed according to the current industry requirements!
9. Very good Curriculum

Students Open Ended Feedback on Curriculum Course: BFM

1. Good
2. Teachers should follow the given syllabus to us, some teachers add their own things and topics
3. Tools like chat gpt or even Google is discouraged, teaching us theory which has no practical use outside,
4. All good
5. Need to improve / upgrade some portion with current affairs
6. Ok
7. need to improve some subjects portions
8. Good information
9. Teachers should give some practical activities on subject
10. Improve Practical Concepts in these Curriculum
11. Overall it's very good

Students Open Ended Feedback on Curriculum Course: BIM

1. No practical knowledge
2. Good

Students Open Ended Feedback on Curriculum Course: BCMA

1. Better

Handwritten signature in blue ink.

Students Open Ended Feedback on Curriculum Course: BMS

1. Students are not at all job ready even after completion of second year, they know nothing about how things work in practical life, so stop making students learn and ratifying answers and train them to get job ready.
2. Some teachers does not explain the syllabus properly
3. Organize more events, fests, etc.
4. Teaching faculty can be improvised.
5. Keep it up.
6. Our portion never get completed on time at the end teachers have to rush the portion which is difficult for teachers and specially for students to understand and learn
7. Portion needs to be completed on time by reducing the events.
8. Our teachers were good in behavior and teaching us
9. All good
10. No issues in curriculum
11. Curriculum should include computer learning and should make students job ready
12. Teacher learning experience should be more interactive with teacher provoking student to talk, making them question everything
13. More and better internship should be provided

Students Open Ended Feedback on Curriculum Course: BBA

1. Get better teachers and complete portion in time
2. Practical teachings needs to be included
3. Curriculum should be more like practical and which is going help cope up with the world and one more thing is college timings should be early morning
4. Okay
5. Provide notes of particular courses
6. It should be a bit practical and if possible some kind of notes and portions must be provided at the start which must not change at all
7. Teaching can be made better

Students Open Ended Feedback on Curriculum Course: BEM

1. Best

Handwritten signature or initials in blue ink.

Students Open Ended Feedback on Curriculum Course: BBI

1. Overall satisfactory experience throughout BCom in BBI
2. Nice
3. Need more clear explanation for all subjects
4. Should include more interesting activities and should be given a proper time to do the activities which does not affect the studies
5. Please do make sure don't rush the curriculum before the exams
6. All are supportive
7. Better
8. College should be more specific in teaching methods
9. I think that there should be more lecture for kskool and there should be more activities for development of professionalism in students related to banking field and activities that can show the banking activities practically than theoretical
10. Teachers should cooperate with Students taking part in other curriculum activities

Students Open Ended Feedback on Curriculum Course: BCTM

1. Very Good

Handwritten signature in blue ink.

Students Open Ended Feedback on Curriculum Course: Mass Media and Film Television

1. It was Good but I expected it to be better
2. Syllabus are good
3. They can improve in their time table section by having all the Lecture offline including k-school lecture
4. Syllabus are very good

JS

Students Open Ended Feedback on Curriculum Course: IT

1. There should be more practical has and less theory based on the subject in which practical's are there.
2. Some external subjects in which teacher comes from different sector for example KPMG or WILEY one... they start the syllabus too late!
3. More practical knowledge
4. Yes, The college should provide more internship opportunities
5. Good
6. Excellent
7. Good style of
8. Quite good while explaining complex topics
9. Everything is goid
10. Nice
11. Very good
12. Good

A handwritten signature in blue ink, consisting of stylized, overlapping loops and lines.

Teachers Open Ended Feedback on Curriculum: Commerce

1. Curriculum to be updated in future
2. More practical topics on malls should be included, students should be given intern to work as HR employees
3. Curriculum should include more topics on practical aspects in curriculum
4. Feedback on curriculum should be taken from respective BOS experts also
5. Each course should have research oriented topic or project, keep practical oriented or industry ready topics so students are well versed with functioning of of real world.
6. Views as per Quantitative techniques in Maths and stats
7. Practical module to be added in curriculum

Handwritten signature in blue ink.

Teachers Open Ended Feedback on Curriculum: Humanities

1. We can inculcate field projects and Research Projects for students. Internships should be a part of curriculum.
2. For Psychology curriculum we can incorporate more culturally relevant and sensitive topics, the old Psychology curriculum is based largely on the outside India based topics and theories for Counseling Psychology, Industrial Psychology and research ethics.
3. To incorporate more practical aspect in the curriculum so that students will be industry ready and to give them hands on training.

Handwritten signature in blue ink.

Teachers Open Ended Feedback on Curriculum: Finance

1. Arrange more field visit and student exchange program. Please increase the time period of issued book of library
2. Excellent
3. It could be better
4. It is irrelevant rule of dress code that is to be followed by the students. This shows nothing but that the college is taking away the freedom of the students to choose what to wear which is the basic need of every individual. This is a developing region and an highly educated one which need to educate students as well as the staff including the watchmen and cleaner staff not to judge a girl or a guy for that matter on what they wear. It is very irrelevant to have this rule as it is taking away comfort and freedom which college is not about. There should be respect and discipline enough NOW TO JUDGE PEOPLE ON THE BASES OF THE THEY WEAR.
5. Please complete your syllabus on time
6. please provide a Libray in new building
7. Provide a library in Annex building
8. Provide relevant books and notes of their particular subject
9. Should adopt portion in a detailed manner
10. The course in designed according to the current industry requirements!
11. Very good Curriculum
12. Work on your management team

Handwritten signature in blue ink.

Teachers Open Ended Feedback on Curriculum: Management Studies

1. Syllabi should be more industry oriented
2. Experts from the industry can be called to see the current demands of the industry
3. Now to follow all above and to give sufficient time for teachers
4. Bridge courses to get student industry ready
5. Systematic Revision of Curriculum takes place
6. Involvement or suggestions from advanced learner's on curriculum
7. Practical application is necessary as that is the need of the hour
8. Practical based aspects can be included wherever possible

Handwritten signature in blue ink.

Teachers Open Ended Feedback on Curriculum: Banking and Insurance

1. Modifications in Curriculum after taking inputs from industry experts will definitely help to raise the level of education and skills imparted to our students.
2. Further improvement and updating as per changing needs required.
3. More emphasis on practical aspects to be given
4. Content adequacy to the syllabus is needed

Handwritten signature in blue ink.

Teachers Open Ended Feedback on Curriculum Course: Mass Media and Communication & Film, Television and New Media Production

1. Hands on Training/practical/research based components should be added in theory subjects

↓

Teachers Open Ended Feedback on Curriculum: Information Technology

1. Recent Technology are already covered.
2. Practical and application based topic should be added
3. Research oriented subject needs to be added
4. Revision must be after 3 years to keep pace with industry
5. Curriculum should focus on industry linked projects
6. Add some courses in curriculum for business oriented and specify aspects of curriculum in syllabus

A handwritten signature in blue ink, consisting of stylized, overlapping loops and a long horizontal stroke at the end.

Alumni Open Ended Feedback on Curriculum

1. In last 2 decades expectations have grown in corporate industry and if we want to grow/compete with other academic institutions diversity/modern teachings and curriculum content topics are needed to upskill the students at college level so that they are geared up to qualify for entry level jobs
2. Good work, Keep it up
3. Good Team Work, Good Going
4. Guest session by alumni for students who wish to secure further studies or growth guidance
5. Add new things to curriculum, bring in industry professionals for information sessions on what to expect at work how can you be prepared
